OBJECTIVE

Final-year B.Tech CS graduate with strong working knowledge of **HTML, CSS, and JavaScript** demonstrated through production-deployed projects and prior internship experience. Skilled at **translating designs into pixel-perfect, responsive web implementations**, writing **custom HTML, CSS, and JavaScript** to extend platform capabilities, and **testing pages across browsers and devices**. Familiar with **Webflow** and highly motivated to learn quickly. Strong **attention to detail, design sensibility**, and ability to **collaborate with designers, marketers, and senior developers** – with a track record of **clear documentation and ownership** from day one.

SKILLS

Core Web: HTML5, CSS3, JavaScript (ES6+), Responsive Design, Cross-Browser Testing, Pixel-Perfect Implementation

Design & Tools: Webflow (familiar), Figma-to-Code Translation, Typography, Layout, Visual Accuracy, Chrome DevTools

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Component-Based Architecture, Performance Optimization

Backend & APIs: Python, FastAPI, Flask, Node.js, REST APIs, PostgreSQL, MySQL, MongoDB

DevOps & Workflow: Git/GitHub, Docker, AWS, Azure, CI/CD Pipelines, Agile/Scrum, Technical Documentation

Soft Skills: Attention to Detail, Clear Communication, Taking Direction & Iterating on Feedback, Curiosity, Ownership

EXPERIENCE

Software Developer Intern — Edunet Foundation

May 2025 – Jun 2025 | Remote

- Built **responsive frontend components** using **React.js, HTML, CSS, and JavaScript** with strong focus on **visual accuracy and cross-browser compatibility**; integrated REST APIs for seamless full-stack data flow.
- **Tested pages across browsers and devices** – executed 25+ test cases, identified and documented bugs with clear evidence, and re-tested fixes to ensure stable, production-ready deployments.
- **Documented work clearly** – authored 20+ technical documentation pieces so team members could easily pick up, edit, or extend existing code; followed team processes and iterated rapidly on feedback.
- **Collaborated with developers and senior team members** in an Agile/Scrum remote environment using **Git/GitHub**; demonstrated **curiosity and ownership** delivering improvements that reduced effort by 30%.

PROJECTS

CareerHub | HTML5, CSS3, JavaScript, React.js, TypeScript, Tailwind CSS, REST APIs, PostgreSQL, AWS

[Live](#) • [GitHub](#)

- **Translated product designs into pixel-perfect, responsive web pages** using **HTML, CSS, JavaScript, and React.js** – achieving 60% higher user engagement through polished, performance-optimized UI across all devices.
- Wrote **custom HTML, CSS, and JavaScript** to extend component capabilities; ensured **responsiveness and visual accuracy** across browsers using **Chrome DevTools** and cross-device QA testing.
- **Documented all web components and implementations** clearly for team use; maintained 99% uptime on AWS via CI/CD – demonstrating **ownership and attention to detail** across the full development lifecycle.

NutriScan | HTML5, CSS3, JavaScript, React.js, TypeScript, Tailwind CSS, FastAPI, PostgreSQL, Docker

[Live](#) • [GitHub](#)

- Built a **pixel-perfect, fully responsive** React.js + TypeScript frontend with data visualisation and clean UI – **tested across browsers and devices** to ensure consistent, high-quality user experience.
- Applied strong **attention to design, layout, and typography** – iteratively refined UI based on feedback, extending styling with **custom CSS and JavaScript** for smooth interactions and visual polish.
- **Documented web architecture and component structure** thoroughly; supported 200+ concurrent users – reduced frontend latency by 38% through systematic QA and performance optimization.

EDUCATION

B.Tech – Computer Science — Maharishi Markandeshwar (Deemed to be University)

2022 – 2026 | Ambala, India

CGPA: 8.0/10 • Final Year (2026 Batch) • Computer Science & Software Engineering

CERTIFICATIONS & ACHIEVEMENTS

- **Microsoft Azure AI Essentials Professional Certificate** – Microsoft & LinkedIn | **Responsive Web Design** – MindLuster
- **micro1 AI Interview Certified** – Software Developer Intern | **JavaScript (Intermediate)** – HackerRank
- **Python (Intermediate)** – HackerRank | **SQL (Intermediate)** – HackerRank | **5-Star Algorithms** – HackerRank
- **Python Essentials 1** – Cisco | **Android App Development** – Simplilearn | **Business Email** – HP LIFE
- **Hackathon Participant** – Smart India Hackathon (SIH), TATA Imagination Challenge, HacksIllite, Alpha Intern Hackathon
